Expelling the Poor May 25 2020 Présentation de l'éditeur: "Expelling the Poor" argues that immigration policies in nineteenth-century New York and Massachusetts, driven by cultural prejudice against the Irish and more fundamentally by economic concerns about their poverty, laid the foundations for American immigration control."

**An Address on the Prevention of Pauperism (Classic Reprint)** Aug 08 2021 Excerpt from An Address on the Prevention of Pauperism Povmrrv tells its whole story. It has no concealments. The undisguised spirit speaks through rags, simply, and audibly. Poverty has neither bars nor locks. It wants neither. Not because its faith in man is the highest, or that it looks on Society as altogether a Christian organization, that it has not these wants. Poverty with its essential Openness in the mass, may and does use deception in the individual instance. But it is when it would avoid starvation, or labor, that it Often does this. In these cases it has parted with its principles, or they are overlaid by a stern necessity, or an indolence, which, having begun in some uncontroll ed circumstance, habit has confirmed. Poverty can do nothing for itself. Helplessness, dependence, is one Of the most pressing and saddest facts in the history of poverty. It is this which gave such significance to the laws of Moses in regard to the poor. It is this which was ever in the mind Of the Saviour Of the world, when he commended, nay, urged the offices of active benevo lence on his disciples and his church. He left the poor as a perpetual legacy to his followers, as if he foresaw in their undying charity, love, kindness, to these his spir itual children, an expression Of that providence which God himself extends to his whole universe. **Explaining the Rise in Antebellum Pauperism** Feb 20 2020 The 1850s witnessed one of the earliest American history. During the decade the proportion of individuals receiving public assistance -- increased from 5.8 in 1850 to 10.2 in 1860, an increase of 76 percent. Previous attempts to explain the increase in antebellum pauperism have been hampered by the available published data, which are too aggregated to be of much use. This paper explores the determinants of antebellum pauperism using previously unexploited archival data drawn from the manuscript censuses of social statistics. These records provided detailed evidence on the incidence of pauperism at the county level. We find that about half of the increase in pauperism can be attributed to falling real wages during the decade. Contributing factors were increased immigration and urbanization.

On Pauperism in Present and Past Oct 22 2022 Pauperism and

pauperization are two of the most persistent and widespread phenomena in India. While a fierce debate rages on the line separating the poor from the non-poor, there is scant discussion on the huge mass of paupers not less than one-fifth of the country's population living in destitution. Rural and urban case studies conducted in the state of Gujarat highlight the ordeal of these paupersthe non-labouring poor unable to take care of themselves, the migrant labour driven away from the village and back for lack of work, and an urban underclass redundant to demand, often experienced by the better-off as a nuisance. A comparative study of the politics and policies in present-day India in relation to the condition of the ultra-poor in Victorian England reveals a disturbing common factor a deeply ingrained mindset of social inequality resembling the spirit of nineteenth-century social Darwinism. That ideology of discrimination and exclusion is back with a vengeance the world all over and not least in India. This book examines poverty and inequality through a sociologicalanthropological lens that goes beyond the quantitative and unravels the fuzzy landscape of the informal economy. It fills a conspicuous gap in the literature on casual labourthat on the floating and footloose transient labour.

*The Cost of Insanity in Nineteenth-Century Ireland* Jul 27 2020 This open access book is the first comparative study of public, voluntary and private asylums in nineteenth-century Ireland. Examining nine institutions, it explores whether concepts of social class and status and the emergence of a strong middle class informed interactions between gender, religion, identity and insanity. It questions whether medical and lay explanations of mental illness and its causes, and patient experiences, were influenced by these concepts. The strong emphasis on land and its interconnectedness with notions of class identity and respectability in Ireland lends a particularly interesting dimension. The book interrogates the popular notion that relatives were routinely locked away to be deprived of land or inheritance, querying how often "land grabbing" Irish families really abused the asylum system for their personal economic gain. The book will be of interest to scholars of nineteenth-century Ireland and the history of psychiatry and medicine in Britain and Ireland.

**Observations on pauperism, by R.F.** Jan 25 2023

**The Structure of Idealization** Jun 06 2021 Much is said in Marxist literature about Marxist methodology which is supposed to be entirely original - differing a great deal from all other trends in the modern philosophy of science. On the other hand, however, it is unfallacious to state that there are no people outside Marxism who would like to deny this statement. This has to put those who really believe that Marxism has something important to say in philosophy of science on guard: if someone says something important others usually are inclined to protest. But who is inclined to protest when it is stated that Marx employed both induction and deduction, a historical method and a logical one as well, synthesis, but also analysis, etc? Who is inclined to protest when it is not known what within this framework 'induction', 'deduction' 'history' or 'logic' mean? Who is inclined to protest when 'Marxist methodology' is presented not with the aid of precise definitions and clear hypotheses but with the aid of a jungle of quotations? I think that the main malfeasance of the current 'Marxist methodology', is that of eclecticism. The methodology of Marx is presented as a collection of trivial and/or obscure ideas but not as a system of statements subordinated to any clear, definite viewpoint presenting a new grasp of the nature of scientific cognition. Search for reconstruction of Marxian methodology as a system of the kind is the main aim of this book.

**Memoir on Pauperism** Nov 23 2022 [L]egal charity has not only taken freedom of movement from the English poor but also from those who are threatened by poverty.-from "Memoir on Pauperism" Inspired by a trip to England at a time when that nation was in the throes of political, social, and economic strife and poverty was rampant, political philosopher Alexis de Tocqueville developed his theories on civil society as it relates to its poorest members and set them down in this 1835 essay. With keen insight, he explains: .why the richest nations have the most paupers.why private charity is more likely to alleviate poverty than government aid.how good intentions backfire to produce a chronically dependent underclass.The political and economic situations Tocqueville examines are immediately recognizable as one that haunts the world's richest

nations today, and his lessons are still to be learned. This is an important book for our unsteady times. Also available from Cosimo Classics: Tocqueville's Selected Letters on Politics and Society. French writer ALEXIS DE TOCQUEVILLE (1805-1859) was born in Paris and practiced law before embarking on travels in America to study the young nation's political experiment. The result, the two-volume *Democracy in America* (1835, 1840), is considered a classic discourse on 19th-century America. *From Pauperism to Poverty* Jun 18 2022 First published in 1981, *From Pauperism to Poverty* consists of seven essays, three of which focus on the English poor law between 1800 and 1914 and four of which examine texts of social investigation by Mayhew, Engels, Booth and Rowntree. Rather than making a specialist contribution to the history of social thought and policy, the essays raise general questions about current ways of writing history and alternative analyses of specific texts or institutions are developed. In doing so, the previous histories of the relief of pauperism and the discovery of poverty are revised at many points. Most notably, it is demonstrated for the first time that relief to unemployed men was virtually abolished after 1850. This book will be of interest to those studying the history of social welfare and poverty.

**The Winding Road to the Welfare State** May 05 2021 How did Britain transform itself from a nation of workhouses to one that became a model for the modern welfare state? *The Winding Road to the Welfare State* investigates the evolution of living standards and welfare policies in Britain from the 1830s to 1950 and provides insights into how British working-class households coped with economic insecurity. George Boyer examines the retrenchment in Victorian poor relief, the Liberal Welfare Reforms, and the beginnings of the postwar welfare state, and he describes how workers altered spending and saving methods based on changing government policies. From the cutting back of the Poor Law after 1834 to Parliament's abrupt about-face in 1906 with the adoption of the Liberal Welfare Reforms, Boyer offers new explanations for oscillations in Britain's social policies and how these shaped worker well-being. The Poor Law's increasing stinginess led skilled manual workers to adopt self-help strategies, but this was not a feasible option for low-

skilled workers, many of whom continued to rely on the Poor Law into old age. In contrast, the Liberal Welfare Reforms were a major watershed, marking the end of seven decades of declining support for the needy. Concluding with the Beveridge Report and Labour's social policies in the late 1940s, Boyer shows how the Liberal Welfare Reforms laid the foundations for a national social safety net. A sweeping look at economic pressures after the Industrial Revolution, *The Winding Road to the Welfare State* illustrates how British welfare policy waxed and waned over the course of a century.

*Memoirs on Pauperism and Other Writings* Feb 26 2023 The collection includes new translations of Tocqueville's works, including the first English translation of his Second Memoir, the original Memoir, a letter fragment considering pauperism in Normandy, and the "Pauperism in America" index to the Penitentiary Report. Alexis de Tocqueville was one of the most important thinkers of the nineteenth century, and his thought continues to influence contemporary political and social discourse. In *Memoirs on Pauperism and Other Writings*, Christine Dunn Henderson brings all of Tocqueville's writings on poverty together for the first time: a new translation of his original Memoir and the first English translation of his unfinished Second Memoir, as well as his letter considering pauperism in Normandy and the "Pauperism in America" appendix to his Penitentiary Report. By uniting these texts in a single volume, Henderson makes possible a deeper exploration of Tocqueville's thought as it pertains to questions of inequality and public assistance. As Henderson shows in her introduction to this collection, Tocqueville provides no easy blueprint for fixing these problems, which remain pressing today. Still, Tocqueville's writings speak eloquently about these issues, and his own unsuccessful struggle to find solutions remains both a spur to creative thinking today and a caution against attempting to find simplistic remedies. *Memoirs on Pauperism and Other Writings* allows us to study his sustained thought on pauperism, poverty assistance, governmental assistance programs, and social inequality in a new and deeper way. The insights in these works are important not only for what they tell us about Tocqueville but also for how they help us to think about contemporary

social challenges. This collection will be essential not only to students and scholars of Tocqueville's thought, nineteenth-century France, and political economy, but also to all those interested in the issues of public assistance, associative life, voluntary associations, and charities.

*LETTER ON PAUPERISM & CRIME AD* Mar 03 2021

*The Constitution of Poverty (Routledge Revivals)* Mar 23 2020 First published in 1991, This book looks at how capitalism has affected the organization of the poor. It also explores what the links are between notions of poverty and notions personal responsibility, philanthropy, morality and state forms. An intriguing work for anyone interested in the foundations and long-term progression of the welfare state.

**Extracts from a Report on Pauperism by Dr. C.S. Hoyt** Dec 24 2022

**Pauperism in the United States** Nov 11 2021 This early work by Richard T. Ely was originally published in 1891 and we are now republishing it with a brand new introductory biography. 'Pauperism in the United States' is an academic essay on the causes and solutions to extreme poverty and homelessness. Richard Theodore Ely was born on 13th April 1854, in Ripley, New York, United States. Ely began his academic career as a professor and head of the Department of Political Economy at Johns Hopkins University, Baltimore, where he worked from 1881 to 1892. During this period, Ely co-founded the American Economic Association and served as the group's secretary. He stood as President of the organisation between 1899 and 1901. The Association still titles its annual keynote address the 'Richard T. Ely Lecture' in recognition of his services to the field. Ely published many works on politics and economics, including *The Labor Movement in America* (1886), *Elementary Principles of Economics* (1904), *Property and Contract in their Relations to the Distribution of Wealth* (1914), *Russian Land Reform* (1916), and many more.

**The Poor in Western Europe in the Eighteenth and Nineteenth Centuries** Apr 04 2021 First published in 1986, this book examines poverty and changing attitudes towards the poor and charity across England, France and Italy. It discusses the causes of poverty and the distinctions between the poor and the class-conscious proletariat. Taking

early nineteenth-century Italy as a special study, it uses the exceptionally rich documentary sources from this time to examine such issues as charity, repression, the reasons why families suffered poverty and what strategies they adopted for survival. In this study, Stuart Woolf takes full account of recent work in historical demography and in sociological studies of poverty and the welfare state to produce this original and thoughtful work. This book will be of interest to those studying the history of poverty, class and the welfare state.

**"The Jukes" : a Study in Crime, Pauperism, Disease, and Heredity** Jul 19 2022 "'The Jukes' is a pseudonym used to protect from aspersion worthy members of the family therein studied, and for convenience of treatment, to reduce the forty-two family names included in the lineage to one generic application. An author who, under such circumstances, puts forth a work requiring great precision of statement and freedom from preconceived bias, is bound to state. The second paper is the result of an examination of felon convicts on a very ample schedule, covering

their physical, mental, moral and ancestral traits to test the accuracy of what purports to be the public records of crime in this State; to establish the value of expert work in making a minute census of the prison population, including the trustworthiness of convict testimony, and to lay the basis for a wider and more thorough application of the method of research pursued in the study of the 'Jukes'"--Preface. (PsycINFO Database Record (c) 2011 APA, all rights reserved)

*A Letter on Pauperism and Crime, Addressed to the Members of the House of Commons, by a Guardian of the Poor (Classic Reprint)* Apr 16 2022 Excerpt from *A Letter on Pauperism and Crime, Addressed to the Members of the House of Commons, by a Guardian of the Poor* The Poor Law, in place of attempting to save our working classes from pauperism, insists. On their being in that disgraceful condition ere it will under take to help them. Mr. Glen, in his notes on the consolidated orders of the Poor Law Commissioners, says, p. 29, The function of the Guardians is to relieve destitution actually existing, and not to spend the money of the ratepayers in preventing a person from becoming destitute. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. *Memoir on Pauperism* Mar 15 2022 In this neglected memoir, Tocqueville seeks to understand why the most impoverished countries of Europe in his time had the fewest paupers, while the most opulent nation--England--had the most. His analysis still resonates in our post-industrial society. With an Introduction by Gertrude Himmelfarb.

**Protesting about Pauperism** Sep 21 2022 The consequences of extreme poverty were a grim reality for all too many people in Victorian

England. The various poor laws implemented to try to deal with it contained a number of controversial measures, one of the most radical and unpopular being the crusade against outdoor relief, during which central government sought to halt all welfare payments at home. Via a close case study of Brixworth union in Northamptonshire, which offers an unusually rich corpus of primary material and evidence, the author looks at what happened to those impoverished men and women who struggled to live independently in a world-without-welfare outside the workhouse. She retraces the experiences of elderly paupers evicted from almshouses, of the children of the aged poor prosecuted for parental maintenance, of dying paupers who were refused medical care in their homes, and of women begging for funeral costs in an attempt to prevent the bodies of their loved ones being taken for dissection by anatomists. She then shows how increasing democratisation gave the labouring poor the means to win control of the poor law. ELIZABETH T. HURREN is Senior Lecturer in the History of Medicine, Oxford Brookes University, Centre for Health, Medicine and Society, Past and Present.

*The Tragedy of American Compassion* Feb 02 2021 This is a book of hope at a time when just about everyone but Marvin Olasky has lost hope. The topic is poverty and the underclass. The profound truth that Marvin Olasky forces us to confront is that the problems of the underclass are not caused by poverty. Some of them are exacerbated by poverty, but we know that they need not be caused by poverty, for poverty has been the condition of the vast majority of human communities since the dawn of history, and they have for the most part been communities of stable families, nurtured children, and low crime. It is wrong to think that writing checks will end the problems of the underclass, or even reduce them. - Preface.

Power and Pauperism Jan 13 2022 A new perspective on the place of the workhouse in the history and geography of nineteenth-century society

and social policy.

An Address on Pauperism Jun 25 2020

**American Hungers** Nov 18 2019 Social anxiety about poverty surfaces with startling frequency in American literature. Yet, as Gavin Jones argues, poverty has been denied its due as a critical and ideological framework in its own right, despite recent interest in representations of the lower classes and the marginalized. These insights lay the groundwork for *American Hungers*, in which Jones uncovers a complex and controversial discourse on the poor that stretches from the antebellum era through the Depression. Reading writers such as Herman Melville, Theodore Dreiser, Edith Wharton, James Agee, and Richard Wright in their historical contexts, Jones explores why they succeeded where literary critics have fallen short. These authors acknowledged a poverty that was as aesthetically and culturally significant as it was socially and materially real. They confronted the ideological dilemmas of approaching poverty while giving language to the marginalized poor--the beggars, tramps, sharecroppers, and factory workers who form a persistent segment of American society. Far from peripheral, poverty emerges at the center of national debates about social justice, citizenship, and minority identity. And literature becomes a crucial tool to understand an economic and cultural condition that is at once urgent and elusive because it cuts across the categories of race, gender, and class by which we conventionally understand social difference.

Combining social theory with literary analysis, *American Hungers* masterfully brings poverty into the mainstream critical idiom.

An Address on Pauperism :bits Extent, Causes, and the Best Means of Prevention /cdelivered at the Church in Bowdoin Square, February 4, 1844, by R.C. Waterston .. Jan 01 2021

*Politics, Pauperism and Power in Late Nineteenth-Century Ireland* May 17 2022 This work will be essential reading for social and political historians of nineteenth-century Ireland. It is the first academic study to explore the meanings of poverty, destitution and respectability in post-famine Ireland through the institution of the poor law, and is an original in content and interpretation. Previous works have focussed either on the

relief system or on political developments. This book analyses poor law administration from a social and a political perspective. There is currently renewed interest in the English poor law of 1834, on which the Irish poor law was modelled. This book will provide historians of poverty and welfare, with an important comparative dimension

**Pauper Capital** Feb 14 2022 Few measures, if any, could claim to have had a greater impact on British society than the poor law. As a comprehensive system of relieving those in need, the poor law provided relief for a significant proportion of the population but influenced the behaviour of a much larger group that lived at or near the margins of poverty. It touched the lives of countless numbers of individuals not only as paupers but also as ratepayers, guardians, officials and magistrates. This system underwent significant change in the nineteenth century with the shift from the old to the new poor law. The extent to which changes in policy anticipated new legislation is a key question and is here examined in the context of London. Rapid population growth and turnover, the lack of personal knowledge between rich and poor, and the close proximity of numerous autonomous poor law authorities created a distinctly metropolitan context for the provision of relief. This work provides the first detailed study of the poor law in London during the period leading up to and after the implementation of the Poor Law Amendment Act of 1834. Drawing on a wide range of primary and secondary sources the book focuses explicitly on the ways in which those involved with the poor law - both as providers and recipients - negotiated the provision of relief. In the context of significant urban change in the late eighteenth and nineteenth century, it analyses the poor law as a system of institutions and explores the material and political processes that shaped relief policies.

**Experiencing Dominion** Jan 21 2020 Experiencing Dominion pushes contemporary literature on historical anthropology in a new direction by moving the discussion away from an emphasis on a simple polarity between hegemony and resistance, and instead focusing on the shared interactions between colonizers and colonized, rulers and ruled, foreigners and locals. In this important study, Gallant emphasizes

contingency and historical agency, examines intentionality, and explores the processes of accommodation and, when warranted, resistance. In so doing, he reconstructs the world Britons and Greeks made together on the Ionian Islands during the nineteenth century through their shared experience of dominion.
