The most learner-centered and assessment-driven text available Throughout Psychology, Fifth Edition, Sandra Ciccarelli and J. Noland White employ a learner-centered, assessment-driven approach that maximizes student engagement, and helps educators keep students on track. The authors draw students into the discipline by showing how psychology relates to their own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide students through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster student performance. Based on APA recommendations, each chapter is structured around detailed learning objectives. All of the instructor and student resources are also organized around these objectives, making the text and resources a fully integrated system of study. The flexibility of these resources allows instructors to choose which learning objectives are important in their courses as well as which content they want their students to focus on. "Edgewood has everything I love in a Kristen Ciccarelli book: lyrical prose, a romance that will hurt, and themes rooted in raw and intimate questions, making for a timeless tale." - Joan He, New York Times bestselling author of *The Ones We're Meant to Find* Can love survive the dark? No matter how far she runs, the forest of Edgewood always comes for Emeline Lark. The scent of damp earth curls into her nose when she sings and moss creeps across the stage. It's as if the woods of her childhood, shrouded in folklore and tall tales, are trying to reclaim her. But Emeline has no patience for silly superstitions. When her grandfather disappears, leaving only a mysterious orb in his wake, the stories Emeline has always scoffed at suddenly seem less foolish. She enters the forest she has spent years trying to escape, only to have Hawthorne Fell, a handsome and brooding tithe collector, try to dissuade her from searching. Refusing to be deterred, Emeline finds herself drawn to the court of the fabled Wood King himself. She makes a deal—her voice for her grandfather's freedom. Little does she know, she's stumbled into the middle of a curse much bigger than herself, one that threatens the existence of this eerie world she's trapped in, along with the devastating boy who feels so familiar. With the help of Hawthorne—an enemy turned reluctant ally who she grows closer to each day—Emeline sets out to not only save her grandfather's life, but to right past wrongs, and in the process, discover her true voice. Haunting and romantic, Kristen Ciccarelli's *Edgewood* is an exciting novel from a bold, unforgettable voice in fantasy. "Darkly gorgeous and moving, *Edgewood* is full of curses and fae magic that will capture your heart and wrap it in thorns before setting you free again, forever changed. I devoured *Edgewood* whole and couldn't put it down." - Evelyn Skye, New York Times bestselling author of *The Crown's Game* 5-Steps, Barron's and the other review books are great resources for the end of the year, but the Tamm's Textbook Tools line accompanies kids all year long. They are filled with assignments that follow the regular text as they go through all 14 chapters and the appendix of Ciccarelli & White's 4th AP edition of *Psychology**, published by Pearson. Teachers can copy vocab and chapter activities at will, and they are perfect if there is a

substitute. When publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, which this workbook fills. It doesn't matter whether the textbook is written in ink or electrons, students still need to physically write and keep a notebook for themselves. Portfolios still matter. This independently made series challenges students to define the concepts, apply them, and give examples. Easily collectible, this item may also be used as a student consumable. Find TTT on FB.

Kristen Ciccarelli's bestselling Iskari series comes to a captivating end with this final companion novel to *The Last Namsara*, which Tomi Adeyemi, #1 New York Times bestselling author of *Children of Blood and Bone*, calls "one of my favorite books of all time." At the end of one world, there always lies another. Safire, a soldier, knows her role in this world is to serve the king of Firgaard—helping to maintain the peace in her oft-troubled nation. Eris, a deadly pirate, has no such conviction. Known as the Death Dancer for her ability to evade even the most determined of pursuers, she possesses a superhuman power to move between worlds. Now Safire and Eris—sworn enemies—find themselves on a common mission: to find Asha, the last Namsara. From the port city of Darmoor to the fabled faraway Star Isles, their search and their stories become woven ever more tightly together as they discover that the uncertain fate they're hurtling toward just may be a shared one. In this world—and the next.

Caroline Collier is a woman bogged down in the harsh realities of a life barely lived. Stress from her all-consuming job as an accountant has given her panic attacks, forcing her to take a leave of absence from work. And though her chances of relaxing in the presence of her overbearing, perfect mother are slim, she joins her at the family's vacation home in the mountains of North Carolina. Though Caroline loves the serene beauty of Lake Ophelia, peace of mind is not to be found. Memories of her beloved younger brother, who died when she was seventeen, continue to haunt her, while the tension between her mother and her still simmers. Only their neighbors, the husband and daughter of one of Caroline's childhood friends, seem able to penetrate her cool reserve, giving Caroline the courage to face her biggest fears—and dive headfirst into life... Combined with LaunchPad, including the LearningCurve adaptive quizzing system, the new Fifth Edition is a powerful way to introduce students to the science of psychology.

Kristen Ciccarelli's debut fantasy explores an intricately woven world of deception, inner darkness, and dragons that fantasy fans won't be able to resist. In the beginning, there was the Namsara: the child of sky and spirit, who carried love and laughter wherever he went. But where there is light, there must be darkness—and so there was also the Iskari. The child of blood and moonlight. The destroyer. The death-bringer. These are the legends that Asha, daughter of the king of Firgaard, has grown up learning in hushed whispers, drawn to the forbidden figures of the past. But it isn't until she becomes the fiercest, most feared dragon slayer in the land that she takes on the role of the next Iskari—a lonely destiny that leaves her feeling more like a weapon than a girl. Asha conquers each dragon and brings its head to the king, but no kill can free her from the shackles that await at home: her betrothal to the cruel commandant, a man who holds the truth about her nature in his palm. When she's offered the chance to gain her freedom in exchange for the life of the most powerful dragon in Firgaard, she finds that there may be more truth to the ancient stories than she ever could have expected. With the help of a secret friend—a slave boy from her betrothed's household—Asha must shed the layers of her Iskari bondage and open her heart to love, light, and a truth that has been kept from her.

MyPsychLab is a valuable component to the Ciccarelli/White program. Engaging activities plus assessments provide a teaching and learning system that helps students master psychological concepts more readily. In this breakthrough student resource, two committed, tech-savvy professors, Deborah Licht and Misty Hull, combine years of research and teaching insights with the journalistic skill of science writer, Coco Ballantyne, who came to the project directly from *Scientific American*. Together, they have created an introductory psychology textbook and online learning and comprehension system that draws on written profiles and video interviews of 26 real people to help students better understand, remember, apply, and relate to psychology's foundational concepts and ideas. Beautifully designed, the printed text is filled with high-interest examples and features, including full-page infographics that help students understand and retain key concepts. Online, additional author-created resources, including scaffolded activities and adaptive quizzes, provide a seamless learning experience for students and a reliable assessment mechanism for instructors and programs. This innovative collaboration between Worth Publishers and *Scientific American* reflects a commitment to engaging and educating all students, including those who sometimes seem difficult to engage—in the contemporary style of the world's most respected science magazine. Along with student engagement with the personal stories, *Presenting Psychology 2e* also aims to:

- Demonstrate that psychology is a science
- Help students see the “big picture”
- Provide high-quality accessible visuals that make a difference!
- Illustrate real-world applications
- Maintain a positive perspective of psychology
- Emphasize gender and cultural diversity
- Help dispel myths
- Provide quality assessments
- Create interactive, technology-based learning that appeals to students

The Bedford Introduction to Literature responds to the teaching and learning needs of all kinds of literature classrooms -- and composition courses where literature is a focus. Author Michael Meyer understands that a particular challenge for instructors is that students do not necessarily see literature as relevant to their lives. They may be new to the study of literature, may have difficulty reading it, and may lack confidence in their critical abilities and writing skills. With these factors in mind, Meyer has put together a lively collection of stories, poems, and plays from many periods, cultures, and themes, with voices ranging from the traditional to the latest and hottest contemporary authors. As an experienced anthologist and instructor of literature, Meyer has a knack for choosing enticing selections -- including humorous works and readings from popular culture -- that students both enjoy and respond to. Complementing this unparalleled collection are proven editorial features that offer students real help with reading, appreciating, and writing about literature. The Bedford Introduction to Literature is a book designed to bring literature to life -- and to make students life-long readers. Textbook for Intro to Psychology 10809198. Kristen Ciccarelli's distinct brand of lyrical, haunting fantasy continues in the companion to her bestselling debut, The Last Namsara. Perfect for fans of Kristin Cashore and Renee Ahdieh. Once there were two sisters born with a bond so strong that it forged them together forever. Roa and Essie called it the hum. It was a magic they cherished—until the day a terrible accident took Essie's life and trapped her soul in this world. Dax—the heir to Firgaard's throne—was responsible for the accident. Roa swore to hate him forever. But eight years later he returned, begging for her help. He was determined to dethrone his cruel father, under whose oppressive reign Roa's people had suffered. Roa made him a deal: she'd give him the army he needed if he made her queen. Only as queen could she save her people from Firgaard's rule. Then a chance arises to right every wrong—an opportunity for Roa to rid herself of this enemy king and rescue her beloved sister. During the Relinquishing, when the spirits of the dead are said to return, Roa discovers she can reclaim her sister for good. All she has to do is kill the king.
