regularly makes front page headlines: public officials embezzling government monies, selling public offices, and trading bribes for favors to private companies generate public indignation and calls for reform. In *Corruption: What Everyone Needs to Know*®, renowned scholars Ray Fisman and Miriam A. Golden provide a deeper understanding of why corruption is so damaging politically, socially, and economically. Among the key questions examined are: is corruption the result of perverse economic incentives? Does it stem from differences in culture and tolerance for illicit acts of government officials? Why don't voters throw corrupt politicians out of office? Vivid examples from a wide range of countries and situations shed light on the causes of corruption, and how it can be combated. Justice is music to the Sisterhood's ears as they delve into the dark side of celebrity—from the #1 New York Times bestselling author of *Crash and Burn*. Through all their missions and adventures, the tightknit group of friends who make up the Sisterhood have learned one vital lesson: everybody has a weak spot. In the case of Yoko Wong's dear friend Garland Lee, the multimillion-selling performer known as America's beloved songbird, that weak spot was trusting her lawyer, Arthur Forrester. For years, he's taken advantage of her faith in him to amass a secret fortune. And now, in the deepest betrayal yet, he's dragged her into a lawsuit that could cost her everything. The Sisterhood know they can't let that happen. Forrester has some of the country's top judges in his pocket, and a list of influential and ruthless friends—not to mention knowledge of all the ways the law can be corrupted to work in his favor. But he doesn't have the Vigilantes' deep-seated loyalty and determination. And all his years of underhanded dealings won't prepare him for the type of creative payback that the Sisters have made their specialty . . .

Nothing gets by Jill Bailey. As a CIA analyst, she's in charge of investigating and

He says he's a Syrian defense official attached to a covert biowarfare program--and with a global pandemic fresh in their minds, CIA officials are desperate to use him. It's Jill's job to make sure he is who he claims to be, and that his case officers in the field haven't been duped--or coerced. But before she can get to work, she gets a call. One that's every parent's nightmare. We have your son. And to get him back, Jill does something she thought she'd never do. As it turns out, she isn't the only one with questions about FALCON. Alex Charles, a journalist eager to break the next big story, begins to investigate an anonymous tip: an explosive claim about the CIA's hottest new source. This is the story that Alex has been waiting for. The tip--and a fierce determination to find the truth--leads Alex to Jill, who would rather remain hidden. As the two begin to work together, they uncover a vast conspiracy that will force them to confront their loyalties to family and country"--

Marriage ruins a lot of good relationships. We are defined by what we fear. We all live downstream. One of life's most difficult tasks is to see ourselves as others see us. As we grow old, the beauty steals inward. Most people die with their music still inside of them. Dr. Livingston's sterling qualities are in evidence again: a clear and deep understanding of the hidden hypocrisies, desires, evasions, and emotional tumult that course through our lives; an unerring sense of what is important; and his own ability to persevere-to hope-in a world he knows is capable of inflicting unjustifiable and lifelong suffering. Christina Morillo Favorite observations written over the years reflecting one man's vision of everyday life. Driving is a privilege and not a right. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey.
