Season of Fear Feb 26 2023 Lake Wales, Central Florida. Ten years ago, a political fundraiser became a bloodbath when a hooded assassin

carried out a savage public execution. Three men were massacred, casting a dark shadow over the Sunshine State. A decade on, history is threatening to repeat itself. The widow of one victim, herself now running for governor, has received an anonymous threat - a newspaper clipping from that fateful day, along with the chilling words 'I'm back.' Florida detective Cab Bolton agrees to investigate the threat against this candidate, Diane Fairmont: an attractive politician who has a complicated history with Cab's mother, Hollywood actress Tarla Bolton - and with Cab himself. But by doing so, Cab is entering dangerous waters. Fairmont's political party is itself swamped in secrecy - a fact that, unknown to Cab, has led one of its junior staff to start asking very sensitive questions about the death of a party employee. Both Cab and this young researcher, Peach Piper, are digging up the kind of dirt that ten years can't wash away. And as the powerful crosswinds of state politics swirl around Cab and Peach, and the threat of a tropical storm hangs over Florida, this whirlwind of pressure and chaos will ultimately unearth a poisonous conspiracy, and reawaken a killer who has lain dormant for a decade.

Green Against Green - The Irish Civil War Mar 15 2022 Michael

Hopkinson's *Green Against Green* is the definitive study of the Irish civil war, putting in perspective a bitter and passionate conflict, the legacy of which still divides Irish society today. Widely praised and frequently cited as the most authoritative work on the subject, it continues to hold its place as one of the finest works on modern Irish history. Unlike the Easter Rising and the War of Independence, the Irish Civil War has been largely overlooked by historians, put off by the messy divisions between former War of Independence allies and its continued importance in modern Irish society: even now, the rival parties in the conflict form the basis for two of the largest political parties in Ireland. In *Green Against Green*, Michael Hopkinson addresses this gap in Irish historical writing, looking closely at the reasons for the outbreak of civil war, the major figures who directed it, how it was fought and its impact across Ireland. This major achievement of historical scholarship traces the history and course of the war from 1912 to its conclusion, starting with a sketch of the background to the divisions which surfaced during the war and continuing through to the functioning of the post-civil war Irish State. This groundbreaking work, 'a dispassionate account of the most passionate times' (Irish Times), captures the confused loyalties and localised, often personal, violence that characterised one of the most critical, and least studied, formative events in modern Irish history. *Green Against Green*: Table of Contents Preface PART I. 1912-1921 The Background to the Treaty Divisions, 1912-1918 The Anglo-Irish War, January 1919-July 1921, and the Truce Period The Treaty Negotiations The Treaty Split The Irish Question in the United States PART II. Shaping Ireland's Independence Jun 25 2020 This book explores the political and ideological developments that resulted in the establishment of two separate states on the island of Ireland: the Irish Free State and Northern Ireland. It examines how this radical transformation took place, including how British Liberals and Unionists were as influential in the "two-state solution" as any Irish party. The book analyzes transformative events including the third home rule crisis, partition and the creation of Northern Ireland, and the Irish Free State's establishment through the Anglo-Irish Treaty. The policies and priorities of major figures such as H.H. Asquith, David Lloyd George, John Redmond, Eamon de Valera, Edward Carson, and James Craig receive prominent attention, as do lesser-known events and organizations like the Irish Convention and Irish Dominion League. The work outlines many possible solutions to Britain's "Irish question," and discusses why some settlement ideas were adopted and others discarded. Analyzing public discourse and archival sources, this monograph offers new perspectives on the Irish Revolution, highlighting in particular the tension between public rhetoric and private opinion.

Hardcastle's Quartet Sep 09 2021 Accident . . . or murder? Detective Inspector Hardcastle's seemingly simple investigation turns more complicated, in his latest case June 1918. A patrolling constable discovers the body of Georgina Cheney, wife of a naval commander, in the basement area of a house in Westminster. At first it is thought to be suicide or even a tragic accident. But as Divisional Detective Inspector Ernest Hardcastle of the A or Whitehall Division of the Metropolitan

Police begins to investigate - ably assisted by Detective Sergeant Charles Marriott - they soon discover a different story. It is clear that the woman was murdered, and revelations about the victim's previous life in Malta arouse Hardcastle's interest. But things are destined to get even more complicated for Hardcastle, when he is assigned two further murder cases by Detective Chief Inspector Frederick Wensley, head of the CID at New Scotland Yard. Could they be connected? This may be a puzzle too tricky even for Hardcastle to solve . . .

The Thinking Machine Oct 18 2019 The Thinking Machine (1907) is a short story collection by Jacques Futrelle. Published at the height of his career as a leading popular detective and science fiction writer, The Thinking Machine collects stories that originally appeared in such publications as The Saturday Evening Post and the Boston American. Celebrated for his brisk storytelling and mastery of suspense, Jacques Futrelle was lost at sea on April 15, 1912 while returning from Europe on the HMS Titanic. His wife, who survived the disaster, had his last book dedicated to "the heroes of the Titanic." Professor Augustus S. F. X Van Dusen, Ph.D., LL.D., F.R.S., M.D., M.D.S is a man whose intellect is as exhaustive as his name. Having learned the game of chess just hours before, he defeated grandmaster Tchaichowsky using logic and reason alone, earning himself the nickname "The Thinking Machine." Ever since that fateful day, Van Dusen, with the help of his trusted companion Hutchinson Hatch, is called to solve crimes, complete puzzles, and face challenges no normal man could possibly endure. In "The Problem of Cell 13," Van Dusen argues that no feat is impossible when the human mind is involved. To prove his theory, he endeavors to escape from a notoriously brutal prison in just one week's time. Presented alongside six other stories of mystery and adventure, "The Problem of Cell 13" stands out as one of the greatest detective and suspense tales of all time. With a beautifully designed cover and professionally typeset manuscript, this edition of Jacques Futrelle's The Thinking Machine is a classic of American detective fiction reimagined for modern readers.

The Mirror Thief Jan 13 2022 A New York Times NOTABLE BOOK OF THE YEAR An NPR BEST BOOK OF THE YEAR A Publishers Weekly BEST BOOK OF THE YEAR A globetrotting, time-bending, wildly entertaining masterpiece hailed by the New York Times Book Review as

"Audaciously well written ... the book I was raving about to my friends before I'd even finished it." Set in three different eras, and in three different locations—all, coincidentally, named Venice—this “startling, beautiful gem of a book” (NPR) calls to mind David Mitchell and Umberto Eco in its mix of entertainment and literary bravado. The core story is set in sixteenth-century Venice, where, on the island of Murano, the famed makers of Venetian glass were perfecting one of the old world's most wondrous inventions: the mirror. An object of glittering yet fearful fascination—was it reflecting simple reality, or something more spiritually revealing?—the Venetian mirrors were state-of-the-art technology, subject to industrial espionage by desirous sultans and royals world-wide. Thus, for the skilled craftsmen that made them, any attempt to leave the island—to steal the technology—was a crime punishable by death. One man, however—a world-weary war hero with nothing to lose—has a scheme he thinks will allow him to outwit the city's terrifying enforcers of the edict, the ominous Council of Ten . . . Meanwhile, in two other Venices—Venice Beach, California, circa 1958, and the Venice casino in Las Vegas, circa today—two other schemers launch similarly dangerous plans to get away with a secret . . . All three stories weave together into a spell-binding tour de force that is impossible to put down—an old-fashioned, stay-up-all-night novel that, in the end, returns the reader to a stunning conclusion in the original Venice . . . and the bedazzled sense of having read a truly original and thrilling work of art.

Michael Logue and the Catholic Church in Ireland, 1879-1925 Jul 07 2021 Michael Logue and the Catholic Church in Ireland, 1879-1925 provides a review and consideration of the role of the Catholic Church in Ireland in the intense political and social changes after 1879 through a major figure in Irish history, Michael Logue. Despite being a figure of pivotal historical importance in Ireland no substantial study of Michael Logue (1840-1924) has previously been undertaken. Through the medium of Logue, Privilege examines the role of the Catholic Church in the intense political and social changes in Ireland after 1879. Exploring previously under-researched areas, like the clash between science and

faith, university education and state-building, the book significantly contributes to our understanding of the relationship between the Church and the state in modern Ireland. This book also sets out to redress any historical misunderstanding of Michael Logue and provides a fresh perspective on existing interpretations of the role of the Church and on areas of historical debate in this period.

British Spies and Irish Rebels Jun 06 2021 One of the Irish Times' Books of the Year, 2008 Rebellion, partition and a messy peace settlement ensured that Ireland was a constant thorn in Britain's side after 1916. Britain was confronted by the bombs and bullets of militant republicans, the clandestine intrigues of foreign powers and the strategic dangers of Ireland's wartime neutrality - a final, irrevocable step in the country's difficult transition to independence. Using newly-opened archives, this book reveals for the first time how the British intelligence system responded to these threats. It lifts the lid on the underground activities of Britain's secret agencies - MI5, MI6/SIS and the Special Branch. It puts secret intelligence in the context of the government's other sources of information and explores how deep-rooted cultural stereotypes distorted intelligence and shaped perceptions. And it shows how, for decades, British intelligence struggled to cope with Ireland but then rose to the challenge after 1940, largely because the Dublin government began to share its secrets. The author casts light on characters long kept in the shadows - IRA gunrunners, Bolshevik agitators, Nazi agents, Irish loyalists who acted as British spies. His compelling book fills a gap in the history of the British intelligence community and helps explain the twists and turns of Anglo-Irish relations during a time of momentous change. First volume in an exciting new series, the History of British Intelligence. PAUL MCMAHON gained his PhD from Cambridge University.
